PRESIDENT IS OFF ON A RESTING TRIP

HE LEFT FOR NORTH CAROLINA THIS MORNING.

Dr. Reilly, His Family Physician Accompanied Him and They Will Be Gone About Two Weeks—How the Old Congress Died—All Lotteries Are Barred Out.

Washington, March 5—President Cleveland left this morning for North Carolina on a visit, he being accompanied by Dr. O'Reilly, his family physician. He expects to be gone two weeks. At 8 o'clock yesterday morning when the house of representatives convened in final session, after a four hours' recess, eleven members were on the floor. The speaker was at his post. All looked tired and worn out. In the public gallery opposite the speaker's gallery lounged a half-dozen belated visitors who had remained there all night, and in the private gallery a solitary female held the fort. She looked bedraggled, but was evidently determined to sit it out. Otherwise the hall was deserted.

Mr. Baker (rep., N. H.) had the honor of passing the first bill of the final session. It was a bill to pay a war claim of Margaret Kennedy, amounting to $4,000. The husband of the beneficiary had been a well-known figure about the capitol for years. Every morning he was found at one of the doors with his pockets full of apples, doling them out to members and appealing for votes for his bill.

Mr. Grosvenor (rep., Ohio) caused the first flurry by a sharp speech, contending that the republicans were the true friends of bimetallism. The repeal of the Sherman act two years ago, he said, had accomplished more than any other influence to bring about the hopeful condition for silver we now observed the world over. He predicted great results from the proposed monetary conference.

Mr. Grosvenor's speech precipitated quite a stir among the silver men. Mr. Bryan (dem., Neb.) managed to get the floor and indignantly resented the reflection made by Mr. Pence Sunday upon the silver men who favored this conference. He was for free silver, but he believed it the height of folly for the United States to refuse to join hands of other countries of the world if they were ready and willing to join in the scheme for the remonetization of silver.

Mr. Dingley (rep., Me.) agreed with Mr. Grosvenor, contending with European bimetalists that the single attempt of any country—the United States, France or Germany—to open its mints to the free coinage of silver would swamp it.

The usual committee, consisting of Messrs. Catchings, Outhwaite and Reed, was appointed to join a committee from the senate and inform the President that congress was ready to adjourn.

Mr. Cannon (rep., Ill.) in a graceful speech, offered a resolution of thanks to the speaker, and a great burst of applause greeted the presentation of Mr. Cannon's resolution.

Mr. Wilson, the chairman of the ways and means committee, and Mr. Simpson, Kansas, joined in the testimonial to the "kindness, goodness and fairness of the speaker."

After a few words by Mr. Grosvenor on the same lines Mr. Hatch, who was in the chair, called for a rising vote on the resolution.

Every member of the floor save Mr. Reed of Maine and Mr. Dalzell of Pennsylvania arose and Mr. Hatch declared the resolution unanimously adopted.

A moment later when Speaker Crisp ascended the rostrum the applause and cheering were renewed. The speaker bowed his acknowledgements and after hearing Mr. Cannon's resolution read he delivered his valedictory.

A resolution was then adopted toward a further demonstration of good will, thanking Mr. Pearson of Ohio, chairman of the committee of enrolled bills, for the successful manner in which he had performed his arduous duties, after which the speaker announced the appointment of Messrs. Culberson (dem., Texas), Hitt (rep., Ill.) and himself (under the resolution adopted Sunday night), as members of the monetary commission.

Then the end came. The hands of the clock pointed to 12. "I declare the third session of the fifty-third congress," said the speaker, "adjourned without day."

The silver mace was lifted from its malachite pedestal, the flag above the house was lowered, and amid cheers and cat calls from the galleries, a rush was made for the doors.

But from the press gallery came the sound of music. The newspaper correspondents were singing the doxology: "Praise God from whom all blessings flow." The spectators paused to listen and applaud, and then as the chorus ceased rushed out, and in a few moments the hall was deserted.

IN THE SENATE.

Failure of Attempt to Pass Behring Sea Measures.

Washington, March 5.—After the regular associated report of the senate closed yesterday that body passed a number of bills that were unobjected to. These include the following: "Authorizing the Dyersburg & Mississippi Railway and Improvement company to bridge the Ohio river, Tennessee; for the relief of John W. Kennedy; for the relief of Basil Moreland, and granting a pension of $20 a month to Mrs. Mary E. Wise, widow of Lieut.-Col. F. O. Wise.

On motion of Mr. Platt of Connecticut the house bill was passed amending the copyright law by limiting the severity of the penalty imposed on newspapers for unintentionally violating the law in reproducing copyrighted photographs, etc.

The senate at 4:05 o'clock a. m. took a recess until 9 o'clock with an understanding that no business was to be transacted until 11 o'clock, except in connection with the conference reports.

When the senate reassembled after recess, at 9:10, the vice-president announced his signature to the naval appropriation and the deficiency bills.

At 10:15 Mr. Voorhees offered a resolution, which was adopted, for the appointment of a joint committee of the two houses to wait upon the President and inform him that congress was ready to adjourn. The vice-president named Mr. Voorhees and Mr. Sherman as the senate members of the committeee.

The Behring sea question made its appearance briefly when Mr. Gray (dem., Del.) asked unanimous consent to take up the bill already passed by the house concerning Behring sea regulations, which he said were essential to the preservation of the fur seals, but Mr. Morgan (dem., Ala.), chairman of the committee on foreign relations, objected, and the bill perished.

Another phase of the same subject came up when Mr. Morgan asked the adoption of a pending agreement directing the foreign relations committee to inquire into the claims of Canadian sealers for the seizures of vessels. This time it was Mr. Gray's turn to object. Mr. Morgan thereupon made a pointed statement of the injustice and extravagance of the British demands, his service at the Paris court of award giving the statement special significance. He said the president and secretary of state had urged the payment of $425,000, although the claim was unjustifiable.

Mr. Morrill (Vt.) then presented a graceful compliment to the vice-president, who had temporarily left the chair, in the form of a resolution, thanking him for the ability, dignity, and impartiality with which he had administered the duties of presiding officer. There was loud and unanimous adoption of the resolution.

The thanks of the senate were expressed in a resolution offered by Mr. Manderson for the courtesy and impartiality with which Mr. Harris has served as president pro tem. of the senate. Mr. Harris then took the chair and returned his thanks for the flattering resolution.

At 12 minutes to 12 the last enrolled bill was reported to the senate as signed by the vice-president, but it seemed impossible to get the executive signature on time.

Mr. Voorhees and Mr. Sherman, the senate committee to wait on the President, then appeared and announced the President had no further communication to make.

The vice-president, who had now taken the chair, rose as the clock pointed to two minutes to 12 for a parting word to the senate, declaring the session adjourned without day. As the last words were uttered by the vice-president, being timed to conclude at 12, he brought his gavel down sharply and declared the session at an end.

There was no demonstration and no applause and the senators began bidding their adius.

SIBLEY THE NEW LEADER.

To Be Nominated for President by the 16 to 1 Coinage Men.

Washington, March 5.—The Bimetallic league will soon issue an address to the American people asking their support for a new party having for the principal planks of its platform unlimited coinage of silver at 16 to 1 and demand that the money of the country shall be issued by the government itself. The address will call upon the people themselves to nominate candidates for President and Vice-President by petition, feeling that delegates to conventions do not always represent popular views. The address will also put in nomination Joseph C. Sibley of Franklin, Pa., whose term as representative expired yesterday. Mr. Sibley declined to run for re-election last fall, preferring to retire to private life, and it was only at the urgent and persistent solicitation of the members of the conference that hefinally consented to head the movement for a new silver party.

Barring Out the Foreign Lotteries.

Washington, March 5.—The last measure signed by the President yesterday and one in which a great deal of interest has been taken is the "anti-lottery bill." The sections of the bill apply to the act, all provisions of existing laws for the suppression of the lottery traffic or the traffic in or circulation of obscene books, and extend the powers conferred in Sec. 2, Chap. 908, of the statute of 1890 to all letters or other matter sent by mail.

Senator Ransom Qualifies.

Washington, March 5.—Within two hours after Mr. Ransom of North Carolina ceased to represent that state as a senator he had qualified as United States minister to Mexico. Mr. Ransom will leave for his post in about two weeks.

Made Laws by Grover's Signature.

Washington, March 5.—All the appropriation bills have become laws, the President yesterday morning having affixed his signature to the last of them to reach him—the naval and general deficiency appropriation bills.

WILL RESUME WITH A RUSH.

Hard Week's Work Before the Illinois Legislature.

Springfield, Ill., March 5.—While the attendance of members was unusually goodfor a Monday night's session little of interest transpired in either the house or senate. This morning, however, business begins with a rush. Mr. Weston yesterday introduced a bill "to amend the powers of the city councils in cities and the board of trustees in villages." It is drawn in the interest of wheelmen.

The house adjourned to 10 o'clock this morning.

The senate was in session a very short time in the afternoon and adjourned without transacting any business.

Had No Fire Protection.

Huntington, Ind., March 5.—The town of Andrews, this county, was visited by a fire last night which destroyed property valued at $25,000. Andrews is without fire protection. The insurance covers half the loss.

Business Houses Burn.

Elwood, Ind., March 5.—Fire at Alexandria yesterday morning destroyed six business houses. Loss $30,000.

LOOK INTO THE TAX PAID BY RAILROADS

ASSEMBLY PASSED THE INVESTIGATION MEASURE TODAY

A Hot Debate Lasting an Hour and a Half Preceded Its Passage, It Being Charged That the Measure Was "New Business" and Should Therefore Be Ruled Out.

Madison, March 5—In the assembly this morning an hour and a half was spent in discussing the resolution to investigate the earnings of all railroads upon which state the license tax is paid. A long fight followed on the attempt to throw it out on the ground that it was new business and should be ruled out. The assembly voted to consider it but an attempt to send it to the railroad committee was defeated and amendments changing the resolutions offered were lost. Mr. Hall, the author of the resolution, successfully fought all attempts to sidetrack the amendment and spoke at length showing discrepencies in the returns made by the railroads and the resolution was adopted with but one dissenting vote. The bill legislating Commissioner of Statistics Dobbs out of an office was put over until Thursday in the senate. The senate blacklisting bill was killed.

BRITISH TROOPS ARE MASSING

War in Venezuela May Be Declared—Irish Land Bill Passed.

Caracas, Venezuela, March 5.—It is known that in obedience to instructions from London the government of British Guiana is massing troops on the frontier. This government, fearing an attack of Uruani, is sending troops there in great haste. It is reported that President Crespo has asked for moral support of the other South American countries in his stand against British aggression.

Colon, Colombia, March 5.—Advices from Venezuela indicate that fighting with the British oin the border may begin any moment. The British are massing on the Cuyuni river. There has been severe fighting during last week. The rebels are now marching on this place, having been reinforced by many of the unemployed men who formerly worked on the Panama canal. The government announces that rebels were defeated at Sandern by Gens. Herrera and Reis, many prisoners and weapons being captured. But rebel sympathizers say the battle there lasted three days and resulted favorably for them. Gen. Anacosta is being urged to declare himself president of the republic.

NEW IRISH LAND BILL PASSED.

John Morley's Earnest Plea for It Rushes It Through Without a Division.

London, March 5.—Replying to Sir George Baden-Powell in the house of commons yesterday Sydney Buxton said that owing to a defect in the act of the Canadian parliament confirming the treaty defining the commercial relations between France and Canada, it was yet impossible to exchange its ratifications. It would be amended so soon as the Canadian parliament meets.

John Morley introduced the new Irish land bill. In doing so he said he accepted the declaration of Unionist belief made by the member for South Tyrone, Thomas Wallace Russell, that the land question was at the bottom of the disturbance and ill-feeling in Ireland and that parliament was competent to make such laws as the condition of Ireland required. Upon the conclusion of Mr. Morley's address the bill passed its first reading without a division being taken.

Bayard Is Better.

London, March 5.—Thomas F. Bayard, the American ambassador, who was recently attacked by influenza, has recovered. He will attend the drawing room to be held by the queen at Buckingham palace to-day. Mrs. Bayard will present to her majesty Mrs. Maunsell Bradhurst of New Jersey.

Organizing Trouble in Hayti.

Kingston, Jamaica, March 5.—President Hippolyte and M. Fouchard have had a conference since the recent row in the cabinet. The president accused Fouchard of treachery. A lively war of words followed. Fouchard finally escaped from Hippolyte's clutches and is actively organizing an insurrection.

London and Paris Get More Cold.

London, March 5.—Severe weather has returned in Great Britain and in the northern part of the continent. Yesterday there was a hard frost, and snow is falling to-day in this city and Paris.

Says the Cuban Revolution Is Over.

Washington, March 5.—According to a dispatch received at the Spanish legation in this city the Cuban revolution is nearly over. Minister Muruguay last night received a dispatch from the captain-general of Cuba to that effect.

Churchill Leaves $389,895.

London, March 5.—The personal estate of Lord Randolph Churchill has been proved at £75,971 ($389,855). The executors of his will are his widow and Viscount Curzon.

Astor Is to Come Home.

New York, March 5.—The Morning Advertiser says: "William Waldorf Astor, it is now expected, will within the next few weeks completely sever his connection with the various foreign properties in which he is interested and again become an American citizen."

Two Blocks Burned.

Erie, Pa., March 5.—The business portion of Waterford was destroyed by fire yesterday. Two entire blocks, comprising seventeen business places, are in ruins. The loss will probably reach nearly $100,000.

SENT INTO THE AIR BY AN EXPLOSION

BUILDING S TORN TO BITS AT ANDERSON, INDIANA.

Two Men Are Missing and the Property Lost Will Reach $400,000—Crash Came at 4 O'clock This Morning and Spread Devastation Broadcast.

Anderson, Ind., March 5.—A building in the center of town blew up at 4 o'clock this morning with terrific force. Debris was scattered all over town and two men are missing. The houses all around had their fronts blown in and the loss will reach $400 000.

Gorge Breaks at Port Deposit.

Port Deposit, Md., March 5.—The great ice gorge at McCall's Ferry broke yesterday and the frozen mass, driven by a swift current, came rushing down upon this already inundated town. The loss to lumbermen, fishermen, and property owners along the river front will aggregate about $30,000. The packing houses of J. N. McCullough and E. P. Buckley were carried away. Several fishermen's families who did not abandon their houses in time were taken out of the second story windows into boats. The river is falling slowly.

Alarm at Lancaster, Pa.

Lancaster, Pa., March 5.—The gorge on the Susquehanna at Turkey Hill is reported to be forty or fifty feet high. At noon yesterday the gorge at Safe Harbor shoved and carried away the railroad bridge of the Port Deposit road over Conestoga Creek and ten car loads of coal which had been run on it to weigh it down. There is great alarm at Safe Harbor for fear the gorge at Turkey Hill will break and pile on top of the ice damned at the mouth of the Conestoga, and thus flood the town.

CHECK TO AN EVIL.

Blackmailing of Newspapers Materially Curbed.

Washington, March 5.—In the closing hours of congress a bill passed both houses and before noon had been approved by the President which will bring relief to the minds of newspaper managers the country over, for it will relieve them from the danger of incessant blackmailing at the hands of unscrupulous and designing persons. This relief comes in the shape of an amendment to the existing copyright law, which, while intended only to prevent international stealing of engravings and other works of art, has been used to harass and annoy innocent publishers. Under the old law the person who either innocently or otherwise reproduced a copyrighted picture of any description was liable to a penalty of $1 for every copy found in his possession. Of course this was intended to apply only to persons reproducing engravings or other pictures and selling them in single sheets. A fine of $1 for each sheet so sold was not excessive, but unfortunately some lawyers acting in the interest of unscrupulous clients construed this to include newspapers in such a way that the penalty would be $1 for each copy of the paper run off the presses. Under this construction newspapers which innocently printed copyrighted pictures were sued for amounts equal in each case to their total circulation, while the copyright infringed upon may not have been worth a Chinese cent with a hole in it. The amendment makes the law read as its framers intended.

M'COY HEARING.

Evidence to Show Taylor Was Seeking to Make a Compromise.

Pierre, S. D., March 5.—In the McCoy hearing yesterday Representative Lucas of the investigating committee testified that McCoy said he was here with funds of W. W. Taylor to make a settlement with the state, providing Taylor was exempt from criminal prosecution. Several other witnesses testified to the same thing. Bank Examiner Diamond testified to a conversation that occurred in Chicago between himself, Crawford, and McChesney. Attorney-General Crawford, the complaining witness, testified that McChesney and Tenney made overtures for settlement to him Jan. 28. Crawford said McChesney told him McCoy was in McChesney's employ and also in Taylor's to make asettlement with South Dakota and keep Taylor out of the penitentiary. George A. Pettigrew testified that Senator Pettigrew paid McCoy $5,500 Jan. 7 last.

ROBBED OF SAVINGS.

Farmer and His Wife Held Over Flames in Ohio to Win Their Secret.

Toledo, Ohio, March 5.—Jacob Shonbrick is a wealthy old German farmer, who lives near the Michigan line, some forty miles northwest of Toledo. Late Saturday night four masked men forced an entrance to the house, bound and gagged his wife, his two daughters, and a young son, and then ordered him at the point of a revolver to disclose the hiding place of his money, which was known to be in the house. He refused and the robbers tortured both him and his wife until they fainted. The wife finally disclosed the hiding place of the money and the robbers secured over $6,000. The old man will not talk, and the rumor is that the leader of the gang was aman who is acquainted with the details of a crime in Shonbrick's history, and that the latter fears to make any efforts toward apprehending the criminals for fear of his own safety.

Capital Punishment Law Remains.

St. Paul, March 5.—Yesterday the house indefinitely postponed Ziers' bill to abolish capital punishment for murder in the first degree. In all probability the house will settle the capital matter to-day by passing the bill making a portion of the appropriation for a new building in this city available so work can begin immediately. One of the most sweeping measures thus far was introduced by Mr. Wright yesterday. It is a stringent anti-blacklist law, there being no existing law on this subject in the state.

NOW UTAH WANTS TO BE A STATE

Constitutional Convention Knock at the Door of the Union.

Salt Lake, Utah, March 5.—The day for the opening of the constitutional convention is hailed with delight by the inhabitants of this valley, whose aspirations and constant endeavor for statehood have extended over a period of more than forty years.

The six previous conventions which met and did their work adjourned only to see their hope shattered and statehood deferred. This convention, unlike the six which preceded it, enters upon its labors under the inspiring assurances that statehood will speedily follow the completion of its work.

The recent enabling act provided for the election of 107 delegates and they were elected in November. Owing to irregularities in returns from the third precinct of Salt Lake, and judicial decisions affecting the same, five delegates from that precinct have no certificate of election. On the adoption of a constitutional prohibition, woman suffrage, mining, irrigation, disposition of public lands and legislative apportionment are the questions that will be most prominent before the convention.

The seventh constitutional convention was called to order by Delegate Crane at noon in the new city and county building, with 102 delegates present, fifty-seven of whom are republicans and forty-five democrats. Prayer was offered by President Woodruff of the Church of Jesus Christ of the Latter-Day Saints. Secretary C. C. Richards then called the roll and the oath was administered to the delegates by Chief Justice Merritt.

A congratulatory address was delivered by Gov. West. A temporary organization was then effected by the election of the following officers: Chairman, James M. Kimball; secretary, Heber M. Wells; sergeant-at-arms, J. F. Chidester.

The convention then adjourned until to-day and a caucus was immediately called for the selection of permanent officers. Apostle John Henry Smith of the third precinct, who has not yet received his certificate of election, is the choice of the republican members for permanent chairman. The democratic members had a caucus this morning at which Hon. Moses Thatcher was complimented with a vote for chairman of the convention.

ANNA IS A COUNTESS.

Wedding of Miss Gould and Her French Count.

New York, March 5.—At noon yesterday, his grace Archbishop Corrigan officiating, Miss Anna Gould became the Countess de Castellane, and the fortunes of one of America's richest heiresses were linked with those of a penniless French nobleman of ancient name and proud connections. The wedding, which took place at the home of George Jay Gould, Fifth avenue and Sixty-seventh street, will be marked with a white stone in the chronicles of magnificent social events. The palatial dwelling of the head of the Gould family, with its spacious rooms furnished in oriental splendor, was a fitting place for the ceremony, which could not be held in the cathedral owing to the fact that the bride is a Protestant. The canons of the Church of Rome prescribed baptism in that faith before solemnization of the right of matrimony before the altar of the church. Miss Gould is a Presbyterian, and, while she consented to the Catholic ritual, she declined to join that church. A special dispensation was therefore obtained and the nuptial mass was omitted from the ceremony. The invitations were accordingly limited to the relatives and about seventy-five intimate friends, making less than 100 in all, as the house would not accommodate more. Numbers of curious people gathered about the Gould residence, and through the park wall opposite as the hour of noon approached. They caught brief glimpses of guests as they alighted from carriages and entered the house, but the proceedings inside were behind drawn curtains and were therefore invisible to them.

SENSATION AT DULUTH.

City Father Says He Was Offered $10,000—Others Approached.

Duluth, Minn., March 5.—Ald. Cox of this city said yesterday he had been offered $10,000 to rush the Clyne contract through the council. He said also he was told to give each alderman $2,500. Ald. Olafson said he was offered $1,500, and that all but three aldermen (Patterson, Hale and Howard) were to be made offers. It appears that those pushing the scheme wanted the city to award them a contract without advertising for bids in the sum of $800,000. Bonds for the performance of the work were offered in the sum of $100,000, with W. J. Holmes and H. H. Phelps as sureties. A big sensation is promised as the outcome of the disclosures.

New Trial for the Coffins.

Washington, March 5.—The case of Francis A. and Percival B. Coffin, who were indicted in Indiana in 1893 on fifty counts for complicity in the failure of the Indianapolis National bank, was decided in an opinion by Justice White. The contention of the defendants that no one not an officer o fthe bank could be convicted for complicity was not sustained, but the refusal of the judge to charge that there existed a presumption of innocence was overruled and a new trial ordered.

Committed Murder for $12,000.

Montreal, Que., March 5.—The latest advices from Valleyfield, the scene of the double murder Friday night, when John Lowe and Maxime Lebouf were shot by Bertie Shortis, show that the murderer's motive was robbery. He expected to secure $12,000 which Paymaster Lowe was sorting out to pay the employes of the Montreal Cotton company Saturday.

Will Allow Women to Vote.

Sioux City, Iowa, March 5.—The Sioux City school board at its meeting last night decided to allow women to vote at the school election next Monday. As women, according to the Iowa law, are not allowed to vote except on questions of taxation, this will probably invalidate the election. The board arrived at its decision after hearing the opinion of prominent local lawyers.

HIS WIFE RAN AWAY WITH A HIRED MAN

FRED KLETZER OF WHITEWATER IN PURSUIT.

He Says That His Spouce Left Him to Join Her Fortunes With a Menial And He Would Like to See Them—The Beloit Strike is Ended.

Beloit, March 5—Fred Kletzer, of Whitewater, was in Beloit today looking for his fleeing spouse. Mr. Kelzer eloped with the hired man, he says, and he would like to talk to them a few minutes.

Beloit, Wis., March 5.—The labor troubles at the Fairbanks, Morse & Co.'s works were settled yesterday. The men will return to work at eight hours, the old rate of wages to prevail.

SUPREME COURT DECISIONS

Trusts Play a Losing Game in Yesterday's Court Records.

Washington, March 4.—The case of the Bate Refrigerator company against Francis Sulzberger & Co. upon the question of when American patents expire when foreign patents have been previously issued, has been decided in an exhaustive opinion by Justice Harlan. It is estimated that not less than $600,000,000 of capital hinges upon the decision, which determines the status of many valuable patents.

The court held that the invention for which Bate received a patent was previously patented in a foreign country, and that the United States patent did expire with the foreign patents. The decision is against the electric and other patents involved in the decision of this suit.

The case involves the construction of section 4887 of the Revised Statutes, which provides that "every patent granted for an invention which has been previously patented in a foreign country shall be so limited as to expire at the same time as the foreign patent, or, if there be more than one, at the same time with the one having the shortest term, and in no case shall it be in force more than seventeen years."

Among the patents affected are three issued to the Western Union Telegraph company, on applications filed by Thomas A. Edison, as follows: Patent No. 474,230, application filed April 27, 1877. Nos. 474,231 and 474,232, applications filed July 27, 1877. On March 8, 1893, patent 492,789 was issued to the same party on an application filed by the same party on Sept. 5, 1877. These inventions became the property of the American Bell Telephone company, by the telephone consolidation contract Nov. 1, 1879.

CREW GOT SAFELY AWAY.

Particulars of the Loss of the Schooner Anna Mathilda.

San Diego, Cal., March 5.—The particulars of the wrecking of the schooner Annie Mathilda at Elida island, off the Lower California coast, have been received by the schooner Pacheco, from Ensenada. The Annie Mathilda was moored off the island while the crew gathered guano and placed it aboard of her by small boats. On the night of Feb. 13, during a very heavy blow, the port anchor chain parted and the vessel drifted upon the sand beach of the island. The crew of six men got away on a small boat and passed the night on the island, being taken on the schooner Lou to the mainland. The Lou, having no papers, did not put into Ensenada, but landed the men thirty miles down the coast, from which point they walked to Ensenada, where they took passage on the Pacheco. The Annie Mathilda is a total loss.

MANY MINERS OUT.

Pittsburg Coal Men Lay Down Their Tools and Demand 69 Cents.

Pittsburg, Pa., March 5.—A strike among the miners of the Pittsburg district is still on. As a result of a convention held here yesterday 15,000 men have laid down their tools and declared that not another pound of coal will be mined in the district for less than 69 cents a ton. This action was entirely unexpected. The minority advised delay until the lake shipping season opened. When the convention adjourned miners in every part of the district were notified that 69 cents is the price, and the strike was on. The suspension will be widespread.

Hayward Case Adjourned.

Minneapolis, Minn., March 5. County Attorney Nye was ready to begin his presentation of the Hayward murder case to the jury yesterday, but Judge Smith was not ready to have him. The judge declared that he was not willing to jeopardize the life or the health of Mr. Nye, or Juror Dyer, and he believed it better to give both another day's rest. Accordingly the case was continued until to-morrow.

Few Nominations Failed.

Washington, March 4.—Comparatively few presidential nominations were allowed to fail this session for want of action by the senate. The list of failures includes: David G. Browne, to be collector of customs for the district of Montana and Idaho; J. R. Herod, to be first secretary of legation to Japan, and twenty or thirty postmasters.

Don't Want Mail on Street Cars.

Boston, Mass., March 5.—At a meeting of the Boston Central Labor Union the efforts made to have the mails carried on the street cars of this city were unqualifiedly condemned. It was claimed that in the event of a strike the company would use the mail service as a cloak to run its cars.

Republican Editors to Meet To-Day.

Springfield, Ill., March 5.—The Illinois Republican Editorial Association meet here to-day and to-morrow. This is the annual meeting. Officers will be elected and addresses will be made by members of the legislature and others.

REV. DR. MAXON DEAD AFTER A LONG LIFE

PREACHED IN MILTON EIGHT YEARS.

He Represented That District In the Assembly For One Term and Was Accounted One of the Ablest Men In the Seventh Day Baptist Denomination—County News.

MILTON, March 5—Rev. D. E. Maxson, D. D, died at Alfred, N. Y., Feb. 22. Deceased was pastor of the Seventh Day Baptist church in this village from 1863 to 1871, and represented this assembly district in the Wisconsin legislature in the session of 1869-70. Before coming to Wisconsin he had been professor of physical science in Alfred University, a member of the New York legislature and later in life filled a professorship in the theological department of the above mentioned university. During his pastorate here he made an extensive acquaintance outside of his denomination and gained the respect and esteem of all with whom he came in contact. In the Wisconsin legislature he was recognized as an able speaker and was accorded a position among the members rarely given to a new member. He was in demand while a resident here, as a plaiform speaker in republican and temperance meetings and was a vigorous and instructive preacher and the church here was greatly strengthened during his pastorate. Dr. Maxson was one of the ablest men in the Seventh Day Baptist denomination and his death leaves a vacancy in its ranks that will be felt. The spring crop of tramps are now appearing and most of those that have put in an appearance here are stout, hearty young fellows who are able to work. George Jackson refused an offer of 5 and 1 for his crop of '94 tobacco last week. Rev. Richard Miller is again able to be out, but moves about rather deliberately. The King's Daughters have opened a reading room in the Allen house, where the boys and young men will find a good supply of reading matter. Mrs. Alice S. Blount made a brief visit at her old home Louisville, Ky., this week. Farmers are beginning to think about spring work and Crumb and Ballard are putting in sulky plows, pulverizers and other spring attractions to catch 'em. The weather for a few days past has knocked out the blue bird and robin liars. W. R. Collins, well known to many of our citizens, has been appointed claim agent of the M. St. P. & S. St. M. railway company with headquarters at Minneapolis. Postmaster Morris is confined to the house with an attack of the fashionable complaint LaGrippe, and the mail service of the village is being conducted with accuracy and dispatch by his better half.

NEWS NOTES FROM FOOTVILLE.

F. M. Garlick Will Locate in Roscoe—Entertainment a Success.

FOOTVILLE, March 5—Fred Pankhurst has just received the agency of the Royal Silver Plate Co. of Detroit, Mich. Mr. Pankhurst is one of our most energetic young men, in whom all can place implicit confidence. F. M. Dann is dangerously ill with pneumonia. Mr. and Mrs. Robert Acheson will soon move into C. W. Owen's house on Main street. Mr. Owen intends making California his home for the present. David Ayers, who has been confined to his home for some time is no better. The entertainment given at the Masonic hall on February 22 by our teachers, Misses Gillies and Dann together with their pupils was a very interesting performance and was witnessed by a well filled house. The music on this occasion was furnished by Footville's full orchestra which discussed some very choice selections. F. M. Garlick, our former depot agent has been spending the past two two months in the south, returned to this place on Wednesday and on Thursday moved his household goods to Roscoe where he will make his home for the present. Mr. and Mrs Arthur Gooch are very much pleased with their new daughter who came to brighten their home on Friday. Abe Hetrick and family moved into the village on Saturday. Mrs. Thomas Ogden entertained friends from abroad a part of last week. Rev. Peterson spent Sunday in Appleton. Superintendent William Ross filled the vacancy. Dr. Lacy has twenty-five patients at present and is kept busy day and night.

NEWS FROM AFTON TOWN.

School Is Open Again—Mill Has Started Up—Pleasant Social.

AFTON, March 5—Afton's school, which has been closed for two weeks past on account of Principal Starr's illness, resumed work last Monday under his leadership. The school in the Eddy district, taught by Miss Anna Duggan, gave an enjoyable social at J. B. Humphrey's last Friday evening, the proceeds of which will go to swell the flag fund of the school. It is rumored that the Chicago & Northwestern Railway will put in another long side-track here the coming season. After a period of enforced idleness, caused by ice and high water, Afton mill is again in running order, and W. C. Phoenix is one of the busiest men in town. Frank P. Starr spent a couple of days among the legislators at Madison last week. Mrs. A. B. Waterman is seriously ill, and owing to her advanced age, doubts are entertained of her recovery. Mrs. Nellie McCrea and daughter Jessie, are spending a few days with relatives and friends in Chicago. Mr. and Mrs. Christopher Meyers, of Pecatonica, Ill, visited at W. H. Eldredge's last week. Mr. and Mrs. William Reed, of Janesville, spent Sunday with Mr. and Mrs. G. R. Charles. Frank Blunk is having another tussle with his old enemy, pneumonia, but at last report was somewhat better.

NORTH JOHNSTOWN PASTOR CALLED

Free Baptists Will Not Change But Give Rev. Jones A Call.

NORTH JOHNSTOWN, March 5—The Free Baptist church at their convenant meeting last Saturday gave Rev. Jones a unanimous call to take the pastorate of the church the coming year and so the contemplated change will not be made. C. W. Bullock and wife will return from their visit about March 5, The new organ purchased by the Ladies Aid Society was presented to the church on Sunday February 24 by Mrs. W. H. Newton and responded to by the pastor. The Ladies Aid society will hold a fair and oyster supper at the church Wednesday evening, March 6 and a good time is anticipated. February 23 was the sixty-second birthday of the Rev. I. S. Jones and unknown to him quite a number had been invited to come in for tea. They come and brought good things to eat and a supper was furnished fit for a king. A good time was enjoyed and all seemed happy.

News From Shopiere.

SHOPIERE, March 5—Mrs. A. B. Manley died at her home at Shopiere February 28 of pneumonia. The funeral was held at the Congregational church Saturday at 2 o'clock. Mrs. Chadzie and Mrs. Hawley are on the the sick list. A progressive cinch party was given at Fraternity hall last Thursday evening and a good time was reported by all. The Shopiere I. C. G. T. lodge held their regular meeting last Friday evening. All interested in the welfare of the lodge will please be present next Friday evening as there is some important business to come before the meeting Roy Brown will soon be out again. Mrs. Vincent Truesdell came home last Saturday.

A Holiday Trade.

A walk around yesterday would convince the most skeptical who was doing the business in the dry goods line. Bort, Bailey & Co. were crowded and put one in mind of the day before Christmas, but then its not to be wondered at, as their goods are all new and seasonable. No old stale stuff bought several years ago at a high price, and the result is when a lady wants anything, the latest, she goes there, where she can save at least 20 per cent and get the best.

NO ACTION TAKEN BY THE COUNCIL

CHARTER AMENDMENT REFERRED TO A COMMITTEE

This Will Keep the Matter Alive Until After the Legislature Decided On What Is To Be Done With the Bills Now Before That Body—Other Business.

As foreshadowed in the Gazette last evening the common council did not take any definite action in relation to the adoption of the uniform charter law at the meeting last evening. The meeting had been adjurned, Mayor Thoroughgood stated, for the purpose of considering that ordinance and the general order of business would be suspended for this purpose.

Alderman Baines thought the matter had better be further postponed; he had consulted the city attorney, and it was thought best to defer action until the amendments now pending in the legislature had been disposed of.

City Attorney McElroy remarked that he had been to Madison twice the past week, and would go again this week, and was confident that the amendments which interested the city of Janesville would pass. In his opinion, the question of adopting the uniform charter should be referred back to the committee, and thus kept alive until these measures were disposed of by the legislature. When these bills had all been acted on, we would be better able to judge of their merits, and decide the question more intelligently.

Should Study The Charter.

Alderman Baines thought it would be a good thing for the council to study the uniform charter, section by section. He had read it over, and while he had found some objections, he thought the charter as a whole much better than the one under which we are now acting. Ald Child moved that the matter be referred back to the committee for further investigation. Adopted.

Alderman McLean brought up the matter of drainage on Palm, Pine and Ravine streets and said the people up in that section were complaining bitterly on account of the flood of water settling in that neighborhood. He had visited the place and found the water two and three feet deep, and that some of the people were compelled to use boats to go to and from their homes.

City Engineer Bleedorn explained that there were two ways to get rid of this water; one by continuing Ravine street west to an alley, thence ditching through the Calkins estate, a distance of forty rods The ditch would have to be four feet deep. Another way was to tile a portion of Mineral Point avenue. The city engineer was, on motion of Alderman McLear, directed to report plans and specifications for draining off the water, and there being no further business, the council adjourned.

HISTORIC FAMILY REUNION HELD

Founding of the Village of Milton Commemorated at Will Davis' Home

An interesting family reunion was held at the home of Mr. and Mrs. Will Davis yesterday in commemoration of the founding of Milton. Joseph Goodrich and his party arrived at that place fifty-six years ago yesterday, Ezra Goodrich and Mrs Davis being the only members of the original party of thirteen. Among the guests were Ezra Goodrich and wife, Mr. and Mrs. J. C. Goodrich and Mrs. Jane Goodrich Davis of Rockford.

MRS. FORD WRITES ABOUT THE FUSS

SHE ADMITS THE "MOTHER IN-LAW CHARGE."

But Claims That It Was All On Her Side Not On Her Husband's—Didn't Marry a Man to Support Him—Little Chance, as Friends Had Hoped, For a Reconcilation.

There is now every evidence that the breach between Mr. and Mrs. George O. Ford is one that cannot be bridged. Many friends of both parties thought that the quarrel would die a natural death and that Mr. and Mrs. Ford would make it up. Mrs Ford has written The Gazette the following letter, and as she apoarently thinks that she has been misrepresented in the matter, it is published.

CHICAGO, MARCH 3, 1895.

EDITOR GAZETTE, JANESVILLE, WIS.

DEAR SIR:—I received this morning a Janesville paper and must say that there are many untrue things in it that Mr. Ford has sent for publication in The Gazette. In refutation to these assertions I would like to say that all of them are false, and published more for revenge than anything else. In regard to these I wish to say but little. In the first place I did not marry a man to support him.

In the second place Mr. Ford did not go to the theatre Sunday evening with my brother but went with his father and mother.

Speaking of "too much mother-in-law," that was on my side, not his. I went to Janesville intending to stay four weeks but did not stay so long on account of too much mother-in-law. And another thing. Mr. Ford left me very ill in bed and said he did not wish to live with a sick wife, and Mr. Ford did not telephone me that he was going to leave until 8:30 o'clock Sunday evening.

MRS. FLORENCE WICKES FORD.

Mrs. Ford is mistaken when she says the Gazette's article was published more for revenge than anything else. The Gazette has no desire or cause for revenge. She is also mistaken in attributing the article to her husband. He simply asked to have the fact of their separation published, but furnished no information as to the cause or effect. The Gazette has no axe to grind but aims to print the news and as Mr. Ford's side of the story has been published, Mrs. Ford's version is treated in the same way.

Many friends of Mr. and Mrs. Ford, both in Janesville and Chicago, have predicted that that the "spat" would all be straightened out in due time, but that both of them rushed into print while they were angry, and that reconciliation would therefore be harder to bring about. Now each insists that all is over, however, and each day seems to widen the chasm instead of decreasing it.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blue mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle

DR. MILES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by DR. MILES MEDICAL CO., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5 express prepaid. It contains neither opiates nor dangerous drugs.

MARY L. BOOTH.

1770—Boston massacre; citizens killed by British soldiers. The "Boston massacre" had great influence in arousing popular feeling against English oppression. The immediate cause was resistance to the importation of articles subject to royal tax. The government, as a measure of vengeance upon "the insolent town of Boston," occupied the place with a military force under General Gage. On this date a collision took place between soldiers and citizens in which three of the latter were killed and eight wounded. All taxes were soon repealed except a slight one on tea.

1832—Isaac Israel Hayes, arctic explorer, born in Chester county, Pa.; died 1881.

1889—Mary Louise Booth, American author and editor, died in New York; born 1831.

1893—Hippolyte Adolph Taine, French historian and critic, died in Paris; born 1818.

THE ISSUE IN 1896.

The democratic manifesto issued in the House during the closing hours of congress is strongly suggestive of the issue over which the the two great parties will contend for supremacy in 1896. That the democratic party as a party believes in free silver and cheap money is generally conceeded That representatives of the party in congress were willing to go on record as a matter of policy is very evident. The coast states and the populists from every quarter will be expected to fall into line and help to swell the ranks of democracy.

The lame and halt and blind of all political creeds should have no trouble in finding comfort and satifaction in the camp of the party that declares so emphatically its beleif in the ability of the government to make money worth par, out of raw material worth less than fifty cents on the dollar. The western states can produce the material and double their money, and the balance of the country can spend it after the government stamps it to give it value, providing, of course, that the government casts it broadcast over the land, for the benefit of people who believe that the "world owes them a living."

It is well for the republican party and well for the country that this question of cheap money is to be made a national issue; for underlying it is the question of common honesty, pure and simple. It is meeting again the old spirit of repudiation, that cursed the democratic party during the years of reconstruction; an issue of such vital importance that it will command not only the united support of the republican party, but a large element of democratic voters as well.

That the opposition will be strong and vigorous there is no reason to doubt. The silver men of the country, many of them honest in their convictions, and many more actuated by selfish interests, will not hesitate to allie themselves to a great party committed to their favorite hobby.

The populists and malcontents of all political creeds who are constantly clamoring for more money and less monopoly, will also flock to the support of democracy.

Arrayed against this conglomeration, the republican party will stand as the defenders of national honor.

Some one has truthfully said that it requires a great crisis to consolidate and bring out in its united strength the party that has been so often ridiculed and maligned as the "G. O. P."

The issue of the campaign in 1896 will be recognized as vital not only to party success, but also to national prosperity and welfare. The party that redeemed the land from bondage and preserved the nation's credit and honor when gold was worth two fifty, is abundantly able to so administer the affairs of government in times of peace, that confidence will be restored, and the eight hundred millions of home gold that is being so carefully hoarded, in anticipation of a premium, will again seek channels of investment, and contribute to national prosperity.

CELEBRATED CONGRESS' DEATH.

The death of the democratic congress was celebrated in several Wisconsin towns. Up in Neenah the horse whistles of the paper mills sounded a glad hallelujah during the noon hour and caused the people to think the town was burning up. Shawano celebrated by puttings flags up and the decorating of stores, while Stoughton people celebrated by the firing of cannon, music and patrictic speeches. Many farmers and their wives came in from the surrounding country and business houses and residences were decorated with bunting, bands of music played on the streets. Such displays have not been seen since war times and show plainly that public sentiment is anti-democratic and in favor of protection for American industries and labor.

TO-DAY'S TERSE TOWN TALES

"Self protection" is the first law of nature. A person should be very careful in protecting himself and make sure to buy where the lowest prices are to be had. Some merchants desire to sell only a little bit of stuff and make a big profit, while we want to sell a lot of stuff and make a small profit. Never have the people of this vicinity had an opportunity to get tinware, hardware, etc., as cheap, and when this stock is gone, you will never get this chance again until we buy another fire stock, or some fellow "shuffles off" and we buy the stock.

Clothes wringers, best solid white rubber, latest improved machine, $1 50.

DR. ST. JOHN PLANS TO COME BACK HERE

WILL RETURN TO JANESVILLE ON OR BEFORE APRIL 1.

He Send Word To W. T. Sherer To Have His Old Office Fitted Up For Him As Soon As Possible—Allison Company To Stay Here—Other City News.

DR. J. W. ST. JOHN will soon be practicing medicine in Janesville again. The announcement of this fact comes from the doctor direct, who writes from Excelsior Springs, Mo., that he will certainly be here by April 1, and perhaps before, and will occupy his old office over W. T. Sherer & Co's. drug store. Last evening Mr. Sherer received instructions from Dr. St. John to put the office in shape, that he would be here by the first of April, and if he could close up his business before that time he would be here sooner. Dr. St. John is convinced that there is no place like Janesville for a permanent home, and after remaining away for three years, is anxious to get back among his friends. His return will be welcomed by all Janesville people.

THE Allison furniture factory will not be removed from Janesville. Although the proprietor has received a number of offers from neighboring towns he will not accept any of them, it is said, but will continue to operate the plant as a Janesville institution. The factory will probably be located somewhere nearer town than the old site where it will be afforded better fire protection. Beloit and Rockford people both made Mr. Allison flattering offers but he has decided that Janesville is a good enough town for anyone.

MRS. W. PRIGGE, of St. Paul, who has been visiting her brother and sister, Alvin Wolcott and Miss Emma Wolcott, left on the morning train for Chicago. A farewell party was given her by friends and relatives last evening, and the hours were passed pleasantly in card playing and other amusements. Refreshments were served about midnight, and all had a jolly time.

THE G. A. Proctor training stable at the fair grounds was leased yesterday afternoon to Joseph Hield, who is well known as a horseman. Mr. Hield intends to train colts there during the coming summer. THE LAW IS BESTED BY GENTLE CUPID

BREACH OF PROMISE SUIT ENDED BY A WEDDING.

Miss Bryant Said Henry Wilford Didn't Keep His Word, But After the Wheels of the Law Were Started They Got Together and Decided to Wed.

A sensational breach of promise suit was ended by a Beloit minister yesterday, when he united Henry Wilford and Miss Florence Bryant in matrimony's holy ties. Thus were two hearts bound together in the rose colored bands of love, to bask in the warm sunshine of mutual affection, while several lawyers were left to brave the cutting breezes of disappointment while the mercury in the legal thermometers went down, down, down.

Miss Bryant had been engaged, in a minor position, in the household of Mr. Wilford. She did her work well, and the arrangement seemed to suit both parties to a nicety. Things ran along this way for some time and finally Miss Bryant discovered that she had fallen in love with her employer. She alleges that Mr. Wilford had also expressed the opinion that Cupid had ensnared his heretofore untrammeled heart, and that he, too, had fallen in love. She told this to some of the Line City lawyers and explained that Mr. Wilford had mentioned matrimony in the course of one of their conversations upon the pleasant subject of love, and she wanted him to fulfill his promise. Mr. Wilford had not so construed his language, and a disagreement followed. The Beloit lawyers, J. G. Wickhem and J. B. Dow pinned their faith to the statement of Miss Bryant while E. M. Hyzer of this city, had more confidence in Mr. Wilford's end of the argument. Both sides were getting ready to try the case, when it came to a sudden end. Wilford and Miss Bryant got together and talked the thing over. Each found that there were ties of love between them after all, and they went straightway to the parsonage and were wed. Then white winged peace settled over their heretofore troubled pathway and the legal proceedings were declared off, thereby demonstrating that the spells of cupid are more potent than the magic of the law.

THE CONCORDIA SOCIETY ELECTION

A. W. Baumann Made President at The Meeting Held Last Night.

Whether or not to hold a private masquerade was the subject debated at the meeting of the Concordia society last night. The observers of lent opposed the idea and many refused to vote, the ballot standing eight for and nine against. WINDFALL FOR THE METZINGERS.

Expect To Get Their Share of a $251,000,000 Estate May 1.

There is an estate valued at two hundred and fifty-one million dollars, now about to be distributed among the Metzinger family in Germany and the United States.

John G. and Frank Metzinger reside in Janesville, and they have been informed by their attorney that they will undoubtedly receive their allotment by the first of May.

The estate in question is located in Holland and was that of a member of the Metzinger family who died in Holland one hundred years ago, leaving a vast estate and no will. He was a German, although born in Alsace. Afterward he went to Holland and engaged in mercantile business and shipping, in which he amassed a large fortune. His estate has been in litigation for years, and has now been almost definitely settled.

"The estate inventories at this time $251,000,000," said F. H. Marzluff this afternoon. "There are now something like two hundred heirs to come in for a share, and these are pretty well scattered, mostly, however, in Germany and the United States."

Mr. Marzluff, who is very well posted in this matter, is very sanguine that the reports now received can be relied upon, and that the brothers will soon come in possession of their share.

North Company's Stock.

The Evening Wisconsin has the following to say in regard to the shoe stock, Brown Bros. & Lincoln bought in Milwaukee last Saturday and which will be here tomorrow.

"The stock and fixtures of the J. L. North Shoe company were sold this afternoon at auction, with the probability that litigation will ensue over the sale. The dispute arises from the sale of fixtures. In response to the seductive representations of Receiver Q. A. Matthews, the Meyer Shoe company bid $200 and the fixtures were knocked down to that company. Then Mr. Matthews was notified that M. H. Bryant had put in a bid for $225 and witnesses present so testified. Mr. Matthews then declined to accept the money of the Meyer company and proceed to sell the fixtures to Mr. Bryant. Mr. Meyer, after the sale, put in an appearance and claimed the fixtures, but was not allowed to take them away.

The sale of the stock of nearly $14,000 was opened by a bid of $2,000 by James Morgan. The goods were finally sold to Brown Bros. & Lincoln of Janesville for $4,000.

LESTER LOCKED UP BY THE OFFICERS

BIG THEFT THOUGHT TO HAVE BEEN UNEARTHED.

He Claimed $350 Worth of Goods Supposedly Stolen at Palmyra and Shipped to Beloit—D. D. Williams Is In Trouble Again—Henroth's Case Put Over Until March 13.

Sheriff Appleby was summoned to Beloit this noon, a stranger, giving his name as George Lester, having been arrested upon claiming $350 worth of goods that the Beloit police believed had been stolen at Palmyra and shipped to Beloit.

D. D. Williams is again in trouble. He was confined in the county jail during the small pox quarantine in November, 1893 and after the quarantine was raised he settled the case that was the cause of his confinement by paying fifty dollars and court costs, which amounted to about seven dollars. Yesterday he was rearrested on a warrant and when arraigned in the municipal court this morning his examination was set for March 13 and bonds put at $300.

The case of the state against Edward Henroth, who is charged with receiving stolen goods, was called in the municipal court this morning, and by consent of parties was continued until March 13.

Pass It Over Gov. Matthews' Veto.

Indianapolis, Ind., March 5.—Gov. Matthews yesterday vetoed the legislative apportionment bill, sending a lengthy communication to the house giving his reasons. When the governor's communication had been read the house passed the bill over the veto and sent it to the senate, which quickly followed suit. The new apportionment is thought to mean that the republicans will be able to elect a successor to Senator Voorhees two years hence.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock In the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is $500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with $500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.

It will buy a buy a building lot.

It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for $500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to to Ballot Editor. Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, $500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month. 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

The Keystone of the Arch

In the edifice of health is vigor, which means not merely muscular energy but an active discharge of the various functions of the body such as digestion, secretion of the bile, the action of the bowels, the circulation of the blood Nothing more actively and thoroughly contributes to the united performance of these functions than the renowned tonic and regulator, Hostetter's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the tenure of life is being strengthened—that one is lying up a store of vitality against the unavoidable draughts which old age makes upon the system. The fortifying influence of the Bitters constitute it a reliable safeguard against malaria, rheumatism and kidney trouble. Appetite and sleep improve through its use, and it protects the system from the effects of cold and damp.

SUNDAY'S SERMON BY DR. TALMAGE

"NEW GROUND" THE SUBJECT OF SUNDAY'S DISCOURSE.

From the Text of Romans XV:20—"Lest I Should Build Upon Another Man's Foundation—Saving the Sceptres Is Encouraged.

AFTER, WITH THE help of others, I had built three churches in the same city, and not feeling called upon to undertake the superhuman toil of building a fourth church, Providence seemed to point to this place as the field in which I could enlarge my work, and I feel a sense of relief amounting to exultation. Whereunto this work will grow I can not prophesy. It is inviting and promising beyond anything I have ever touched. The churches are the grandest institutions this world ever saw, and their pastors have no superiors this side of heaven; but there is a work which must be done outside the churches, and to that work I join myself for a while, "Lest I build on another man's foundation."

The church is a fortress, divinely built. Now, a fortress is for defense and for drill and for storing ammunition, but an army must sometimes be on the march far outside the fortress. In the campaign of conquering this world for Christ the time has come for an advance movement, for a "general engagement," for massing the troops, for an invasion of the enemy's country. Confident that the forts are well manned by the ablest ministry that ever blessed the church, I propose, with others, for a while to join the cavalry and move out and on for service in the open field.

In laying out the plan for his missionary tour, Paul, with more brain than any of his contemporaries or predecessors or successors, sought out towns and cities which had not yet been preached to. He goes to Corinth, a city mentioned for splendor and vice, and Jerusalem, where the priesthood and Sanhedrim were ready to leap with both feet upon the Christian religion. He feels he has a special work to do and he means to do it. What was the result? The grandest life of usefulness that man ever lived. We modern Christian workers are not apt to imitate Paul. We build on other people's foundations. If we erect a church we prefer to have it filled with families all of whom have been pious. Do we gather a Sunday school class, we want good boys and girls, hair combed, faces washed, manners attractive. So a church in this day is apt to be built out of other churches. Some ministers spend all their time in fishing in other people's ponds, and they throw the line into that church pond and jerk out a Methodist, and throw the line into another church pond and bring out a Presbyterian, or there is a religious row in some neighboring church and the whole school of fish swim off from that pond and we take them all in with one sweep of the net. What is gained? Absolutely nothing for the general cause of Christ. It is only as in an army, when a regiment is transferred from one division to another, or from the 14th regiment to the 69th regiment. What strengthens the army is new recruits.

The fact is, this is a big world. When, in our school boy days, we learned the diameter and circumference of this planet, we did not learn half. It is the latitude and longitude and diameter and circumference of want and woe and sin that no figures can calculate. This one spiritual continent of wretchedness reaches across all zones, and if I were called to give its geographical boundary I would say it is bounded on the north and south and east and west by the great heart of God's sympathy and love. Oh, it is a great world. Since six o'clock this morning at least 80,000 have been born and all these multiplied populations are to be reached of the gospel. In England or in eastern American cities we are being much crowded and an acre of ground is of much value; but out west 500 acres is a small farm and 20,000 acres is no unusual possession. There is a vast field here and everywhere unoccupied, plenty of room more, not building on another man's foundation. We need as churches to stop bombarding the old iron-clad sinners that have been proof against thirty years of Christian assault, and aim for the salvation of those who have never yet had one warm hearted and point blank invitation. There are churches whose buildings might be worth $200,000, who are not averaging five new converts a year and doing less good than many a log-cabin meeting house with tallow candle stuck in wooden socket, and a minister who has never seen a college or known the difference between Greek and Choctaw. We need churches to get into sympathy with the great outside world and let them know that none are so broken-hearted or hardly bestead that they will not be welcomed. "No!" says some fastidious Christian, "I don't like to be crowded in a church. Don't put any one in my pew." My brother, what will you do in heaven? When a great multitude that no man can number assembles they will put fifty in your pew. What are the select few to-day assembled in the Christian churches compared with the mightier millions outside of them? At least 3,000,000 people in this cluster of seaboard cities, and not more than 200,000 in the churches. Many of the churches are like a hospital that should advertise that its patients must have nothing worse than toothache or "run-arounds," but no broken heads, no crushed ankles, no fractured thighs. Give us for treatment moderate sinners, velvet-coated sinners and sinners with a gloss on. It is as though a man had a farm of 3,000 acres and put all his work on one acre. He may raise never so large ears of corn, never so big heads of wheat, he would remain poor. The church of God has bestowed its chief care on one acre and has raised splendid men and women in that small enclosure, but the field is the world. That means North and South America, Europe, Asia and Africa, and all the islands of the sea.

It is as though after a great battle there were left 50,000 wounded and dying on the field, and three surgeons gave all their time to three patients under their charge. The major-general comes in and says to the doctors: "Come out here and look at the nearly 50,000 dying for lack of surgical attendance." No," say the doctors, standing there and fanning their patients, "we have three important cases here and we are attending to them, and when we are not positively busy with their wounds, it takes all our time to keep the flies off." In this awful battle of sin and sorrow, where millions have fallen on millions, do not let us spend all our time in taking care of a few people, and when the command comes: "Go into the world," say practically: "No, I can not go; I have here a few choice cases and I am busy keeping off the flies." There are multitudes to-day who have never had any Christian worker look them in the eye and with earnestness in the accentuation say: "Come!" or they would long ago have been in the kingdom. My friends, religion is either a sham or a tremendous reality. If it be a sham, let us cease to have anything to do with Christian association. If it be a reality, then great populations are on their way to the bar of God unfitted for the ordeal, and what are we doing?

In order to reach the multitude of outsiders we must drop all technicalities out of our religion. When we talk to people about the hypostatic union and French encyclopedianism and Erastinianism and Complutensianism, we are as impolitic and little understood as if a physician should talk to an ordinary patient about the pericardium and intercostal muscle and scorbutic symptoms. Many of us come out of the theological seminaries so loaded up that we take the first ten years to show our people how much we know and the next ten years to get our people to know as much as we know, and at last find that neither of us knows anything as we ought to know. Here are hundreds of thousands of sinning, struggling and dying people who need to realize just one thing—that Jesus Christ came to save them, and will save them now. But we go into a profound and elaborate definition of what justification is, and after all the work there are not, outside of the learned professions, 5,000 people in the United States who can tell what justification is. I will read you the definition:

"Justification is purely a forensic act, the act of a judge sitting in the forum, in which the Supreme Ruler and Judge, who is accountable to none and who alone knows the manner in which the ends of his universal government can best be obtained, reckons that which was done by the substitute, and not on account of anything done by them, but purely upon account of this gracious method of reckoning, grants them the full remission of their sins."

Comparatively little effort has as yet been made to save that large class of persons in our midst called sceptics, and he who goes to work here will not be building upon another man's foundation. There is a great multitude of them. They are afraid of us and our churches, for the reason we do not know how to treat them. One of this class met Christ, and hear with what tenderness and pathos and beauty and success Christ dealt with him: "Thou shalt love the Lord thy God with all thy heart and with all thy soul and with all thy mind and with all thy strength. This is the first commandment, and the second is like to this, namely: Thou shalt love thy neighbor as thyself. There is no other commandment greater than this." And the scribe said to him: "Well, Master, thou hast said the truth, for there is one God; and to love him with all the heart and all the understanding and all the soul and all the strength is more than whole burnt offerings and sacrifices." And when Jesus saw that he answered discreetly, he said unto him: "Thou art not far from the kingdom of God." So a sceptic was saved in one interview. But few Christion people treat sceptics in that way. Instead of taking hold of them with the gentle hand of love, we are apt to take them with the iron pincers of ecclesiasticism.

Again, there is a field of usefulness but little touched or occupied by those who are astray in their habits. All northern nations, like those of North America and England and Scotland, that is, in the colder climates, are devastated by alcoholism. They take the fire to keep up the warmth. In southern countries, like Arabia and Spain, the blood is so warm they are not tempted to fiery liquids. The great Roman armies never drank anything stronger than water tinged with vinegar, but under our northern climate the temptation to heating stimulants is most mighty and millions succumb. When a man's habits go wrong the church drops him, the social circle drops him, good influence drops him, we all drop him. Of all the men who get off the track, but few ever get on again. Near my summer residence there is a life saving station on the beach. There are all the ropes and rockets, the boats, the machinery for getting people off shipwrecks. One summer I saw there fifteen or twenty men who were breakfasting after having just escaped with their lives and nothing more. Up and down our coasts are built these useful structures, and the mariners know it, and they feel that if they are driven into the breakers, there will be apt from shore to come a rescue. The churches of God ought to be so many lifesaving stations, not so much to help those who are in smooth waters, but those who have been shipwrecked. Come, let us run out the life boats! And who will man them? We do not preach enough to such men; we have not enough faith in their release. Alas, if when they come to hear us, we are laboriously trying to show the difference between sublapsarianism and supralapsarianism, while they have a thousand vipers of remorse and despair coiling around and biting their immortal spirits. The church is not chiefly for goodish sort of men whose proclivities are all right and who could get to heaven praying and singing in their own homes. It is on the beach to help the drowning. Those bad cases are the cases that God likes to take hold of. He can save a big steamer as well as a small sinner, and when a man calls earnestly to God for help he will go out to deliver such a one. If it were necessary, God would come down from the sky, followed by all the artillery of heaven and a million angels with drawn swords. Get one hundred such redeemed men in each of your churches, and nothing could stand before them, for such men are generally warm hearted and enthusiastic. No formal payers then. No heartless singing then. No cold conventionalisms then.

Furthermore, the destitute children of the streets offer a field of work comparatively unoccupied. The uncared for children are in the majority in most of our cities. Their condition was well illustrated by what a boy in this city said when he was found under a cart gnawing a bone, and some one said to him, "Where do you live?" and he answered, "Don't live nowhere, sir!" Seventy thousand of the children of New York city can neither read nor write. When they grow up, if unreformed, they will outvote your children and they will govern your children. The whisky ring will hatch out other whisky rings, and grog shops will kill with their horrid stench public sobriety, unless the church of God rises up with outstretched arms and enfolds this dying population in her bosom. Public schools can not do it. Art galleries can not do it. Blackwell's Island can not do it. Alms houses can not do it. New York tombs can not do it. Sing Sing can not do it. People of God, wake up to your magnificent mission! You can do it. Get somewhere, somehow, to work.

I have heard of what was called the "thundering legion." It was in 179, a part of the Roman army to which some Christians belonged, and their prayers, it was said, were answered by thunder and lightning and hail and tempest, which overthrew an invading army and saved the empire. And I would to God that you could be so mighty in prayer and work that you would become a thundering legion, before which the forces of sin might be routed, and the gates of hell made to tremble. All aboard now on the Gospel ship! If you can not be a captain or a first mate, be a stoker, or a deck hand, or ready at command to climb the ratlines. Heave away now, lads! Shake out the reefs in the foretopsail! Come, O heavenly wind, and fill the canvas! Jesus aboard will assure our safety. Jesus on the sea will beckon us forward. Jesus on the shining shore will welcome us into harbor. "And so it came to pass that they all escaped safe to land."

A Misfit.

A man who will rob his neighbor of his good name never becomes large enough to wear it.—Palmyra Journal.

ASSIST NATURE a little now and then, with a gentle, cleansing laxative, thereby removing offending matter from the stomach and bowels, and toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, biliousness, skin diseases, boils, carbuncles, piles, fistulas and maladies too numerous to mention.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles and indigestion.

You need this Spring Medicine now.

Dr. Greene's Nervura Blood and Nerve Remedy.

Purely Vegetable and Harmless.

The Best Spring Medicine.

Felt Weak and Dizzy. Had Indigestion. Stomach Bloated. Pain and Distress in Stomach.

Joseph E. Hood, of 129 Front Street, Woonsocket, R. I., speaks as follows in regard to his recent illness:—

"I felt weak and dizzy in the morning, and my stomach would not digest well, and made me feel so it would burst. I had excruciating pain in the pit of my

stomach at times. I used Dr. Greene's Nervura blood and nerve remedy, and every dose gave me relief the moment I took it. The pain is all gone and I feel strong all day—in fact, I feel like a new man. I would not be without Dr. Greene's Nervura blood and nerve remedy in the house."

Perfectly Cured by Dr. Greene's Nervura Blood and Nerve Remedy. It will cure you.

Weak, Tired and Nervous.

MRS. J. W. BEALE.

Mrs. J. W. Beale, who resides at 52 Eastern Avenue, Worcester, Mass., makes the following statement:—

"I was sick for more than seven years, not able to do my housework for five years. I employed more than sixteen different doctors without benefit. The whole length of my spine was very bad, which went to my head, being so bad that it was about impossible for me to stoop to the floor, or turn my head to the right or left, my neck was so stiff.

"I was unable to comb my hair, the nerves of my head were so sore. I also had convulsions and kidney trouble.

"After a time I was persuaded to use Dr. Greene's Nervura blood and nerve remedy. Words cannot express my wonderful cure! Now all is changed, and I am strong and well, and able to do all my work. I have gained 26 pounds in weight, and where before all was gloom and despondency, there is now light and hope.

"Words cannot express my feelings! Thanks to God, and the wonderful medicine, Dr. Greene's Nervura blood and nerve remedy, I am cured. I write this with the desire that others may be influenced to use this wonderful medicine as I did and be cured.

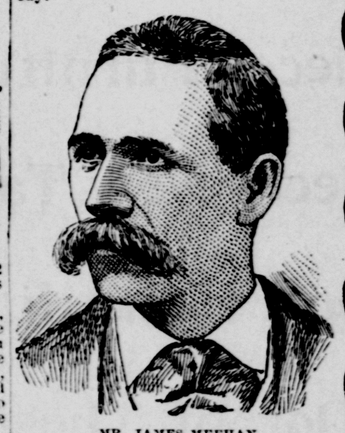

Liver and Bowels out of order. Nerves weak. Could not sleep.

Mr. James Meehan, who resides at 57 Granite Street, Quincy, Mass., says:—

"I was taken sick with liver disease and ulceration of the bowels. My heart was also affected. I was confined to my bed three months.

"A consultation of physicians was held, and I was pronounced incurable.

"After that I stopped taking their remedies, and began the use of Dr. Greene's Nervura blood and nerve remedy.

MR. JAMES MEEHAN.

"Previous to this I could not sleep, my nerves were excitable and spasmodic, my stomach would not bear food, vomiting almost constantly. Soon after beginning this remedy I slept better, and my stomach would bear light food.

"I continued to gain until I could get out. I now work all the time, and feel that Dr. Greene's Nervura blood and nerve remedy saved my life."

He was made well by Dr. Greene's Nervura Blood and Nerve Remedy.
